Vivaan Saroj

Web Developer | UI/UX Enthusiast

Email: lordvivaan461@gmail.com | Phone: +91 78008 79801 | LinkedIn: linkedin.com/in/vivaansaroj461

Professional Summary

Passionate and detail-oriented Web Developer specializing in front-end development and user-focused interface design. Proficient in HTML5, CSS3, JavaScript, and modern frameworks. Skilled in building responsive, interactive projects-from calculator apps to fully functional weather and to-do applications. Adept at clean coding, debugging, and collaborating to deliver polished finished products.

Technical Skills

Front-End Development:

- HTML5, CSS3 (including Flexbox & Grid), JavaScript (ES6+), responsive design

- Basic React.js - building components, managing props & state

Back-End & APIs:

- Node.js & Express.js: API development, routing, middleware

- MongoDB (CRUD with Mongoose) and MySQL for data storage

- RESTful APIs and JSON handling

Tools & Version Control:

- Git & GitHub: branching workflows, pull requests, repositories

- Visual Studio Code with Snippets and extensions

- npm package manager and deployment using GitHub Pages or Render

UI/UX & Soft Skills:

- Figma for basic wireframing and UI mocks

- Strong problem-solving, debugging, and analytical thinking

- Clean code, documentation, and excellent communication skills

Project Highlights

* Personal Portfolio: A responsive, animated portfolio showcasing work, skills, and contact details. [HTML, CSS, JS]

* Product Landing Page: Visual landing page with CTAs and responsive design. [HTML, CSS]

* Calculator App: Functional calculator with dynamic UI. [JavaScript]

* Rock Paper Scissors Game: Score-tracking game vs. computer. [JavaScript]

* Weather App: Fetches live weather data via API. [JavaScript + API]

* To-Do List App: Task manager with localStorage. [JavaScript]

Education

Self-Taught Web Developer

Focused on systematic learning through online tutorials, hands-on coding, and real-world mini-projects. Topics include front-end fundamentals, logic-driven apps, and API interaction.

Why I Stand Out

- Strong foundation in clean, responsive UI layout

- Real-world experience in executing functional, user-interactive web apps

- Ability to work independently and collaborate efficiently

- Eager to learn, adapt, and deliver polished digital solutions
